

CORRECTION:

SS11 will be held at FC-402.

Parallel Session 8 :: Sunday, July 8, 08:00 – 10:00

Special Session 11	Dynamical System Modeling for Ecological Effects and Evolution of Dispersal in Biological Systems Organizer(s): Adrian Lam, Robert Stephen Cantrell, Chris Cosner, Yuan Lou	FC-203 FC-402
08:30-09:00	Wei-Ming Ni (ECNU, Peoples Rep of China) A Consumer-Resource Model in Population Dynamics	Abstracts p. 36
09:00-09:30	Peter Hinow (University of Wisconsin - Milwaukee, USA) Oscillations in the Near-Field Feeding Current of a Calanoid Copepod Are Useful for Particle Sensing	Abstracts p. 34
09:30-10:00	Benlong Xu (Shanghai Normal University, Peoples Rep of China) Invasion and Coexistence of Competition-Diffusion-Advection System with Heterogeneous Vs Homogeneous Resources	Abstracts p. 38
